Seidler Chemical Company is a valued chemical supplier to a wealth of different clients covering diverse global industries. We have successfully partnered with thousands of customers as an integral part of their supply chain management. Put our sterling reputation for quality products, timely delivery, and exceptional customer care to work for you!

**PERSONAL CARE**
Cosmetics and Personal Care manufacturers have extensive alcohol needs that Seidler Chemical is uniquely suited to fulfill. We are a fully permitted and stocking distributor for Pharmco-Aaper’s extensive line of SDAs, SISs, Isopropanol and other multi-compendia solvents. In early 2016, we will be permitted and bonded to stock pure ethanol and ethanol blends as well.

Cosmetics and Personal Care Manufacturers utilize tens of thousands of raw materials ranging from common building blocks such as surfactants and preservatives to exotic herbal extracts. Put Seidler Chemical’s extraordinary sourcing capabilities to work for you!

**ELECTRONIC MATERIALS**
Seidler Chemical stocks a large variety of Electronic grade and Advanced materials. We offer numerous brands providing the standard solvents, acids and etches in many grades and different packages. We can custom blend or source a wide range of etches, acid dips, and ultra-high purity products. Seidler Chemical is a major distributor and supplier of Avantor™ Performance Materials products, as well as materials from MicroChem, Puritan Products, and other specialty electronic manufacturers.

**PHARMACEUTICALS/BIOTECHNOLOGY**
With the rapid development of pharmaceutical and biotechnology research, it is imperative for scientists to partner with suppliers that offer high quality c-GMP raw materials with efficient scale-up capabilities. Seidler Chemical has hundreds of chemicals IN STOCK, delivering salts, solvents, pH adjusters, and separation products quickly. Seidler Chemical utilizes Good Distribution Practices as outlined by The International Pharmaceutical Excipients Council (IPEC).

Purified water is an integral part of many manufacturing processes in the pharmaceutical and biotechnology sectors. Seidler Chemical supplies a wide variety of grades of water, including Distilled, Chromatography, USP Purified, as well as USP Water for Injection. Seidler Chemical also stocks and supplies a full line of alcohols, including SDAs and ethanol blends from small package to bulk.

Here’s why you need to partner with Seidler Chemical today!

For over 100 years, the Seidler Chemical Company has served as a leading supplier, distributor, blender, and re-packager of quality chemicals and ingredients. Founded in 1896 by Alexander Seidler, our company continues to be family owned and operated, treasuring the values of the past while bonding to the pace and passion of today’s marketplace.

CLIENTS DEPEND ON SEIDLER CHEMICAL FOR:

- **Hundreds of quality products** stocked in our own warehouse.
- **Repackaging capabilities to fit customer specific requirements.**
- **On-time deliveries via our own trucks and carriers.**
- **Lot selection and traceability.**
- **Temporary and long-term warehousing.**

**CUSTOM/BATCH REPACKAGING**

Is there a product that you are not able to purchase in the optimal package size that would streamline your process? Seidler Chemical repackages hundreds of products into customer specified sizes and containers. Many products are available in sizes from grams and milliliters to pails, drums, and bulk.

**ENVIRONMENTAL TESTING & REMEDIATION**

Seidler Chemical provides a broad line of chemicals and products used in environmental testing labs. Whether you are testing for metals, organic compounds, alkalinity, PCBs or toxic organics, we supply the reagents to give you the best results.

Seidler Chemical also stocks a full array of products for site remediation. We can custom blend and package both liquids and solids into the percentages and sizes that best fit your needs.

**WATER & WASTEWATER TREATMENT**

Nearly every business has a need for either purification of water for the manufacturing process, or to clean a waste stream effluent. Seidler Chemical stocks a diverse range of products for either application. We can custom blend most products to any percentage to meet your requirements. Our liquid products are available in custom packaging, including 1 gallon, 5 gallon, 15 gallon, 55 gallon, and bulk. Dry chemicals are available in virtually any quantity and package size.

**INDUSTRIAL GRADE & HIGH PURITY PRODUCTS**

Seidler Chemical distributes thousands of high purity chemicals, and is a leading supplier of industrial/commercial/technical grade products. We are the experts at finding the ideal match for the most demanding specifications, and will lot-select your raw materials for stringent compliance on every shipment.

**LABORATORY REAGENTS**

Seidler Chemical is an authorized distributor for Avantor Performance Materials’ J.T. Baker and Macron lines, including their Laboratory, Microelectronic, Biotechnical, Chromatography, and Specialty Chemicals. Seidler also distributes products from Spectrum Chemical and Pharmco-Aaper, as well as other leading Chemical Manufacturers.

**FOOD & BEVERAGE/ NUTRACEUTICALS**

Food & Beverage clients demand reliable, high-quality ingredients, with an increasing focus on supply chain management and accountability. Seidler Chemical consistently provides the exceptional quality, product diversity and traceability that these discerning customers require.

**CONSTRUCTION & ROOFING PRODUCTS**

Seidler Chemical packages and distributes solvents and adhesives used in new roofing construction and a variety of other construction applications. Products are available in cases of 1-gallon cans, 5-gallon pails, and in drums. We can also package and private label any number of proprietary blends.
